

PC-Sealcoat® Antidust

PC-Sealcoat® Antidust is introducing a novel range of transparent acrylic topcoats featuring enhanced dirt pick-up resistance properties. These topcoats are designed to uphold the immaculate appearance of exterior wall coatings over prolonged durations. Typically utilized as a protective layer over texture coat, they provide additional safeguarding against environmental contaminants, rendering them ideal for commercial, industrial, and factory applications.

FEATURES & BENEFITS

- The product includes a transparent topcoat available in both matte and glossy finishes.
- It boasts exceptional weather resistance and maintains its clarity over time.
- Enhanced resistance to dirt accumulation is a key feature.
- The topcoat is crafted with a water-based formula for optimal performance.

USES & APPLICATION

- Ideal for application on Textured Coatings.
- Particularly recommended for areas with high pollution levels.
- Suitable for application in proximity to busy roads.
- Can be applied over a thoroughly cleaned and primed existing wall coating.
- Applicable using a brush, roller, or spray method.

COVERAGE

PC-Sealcoat® Antidust	0.15-0.2 kg/m ² (depending on texture and surface conditions)
